

# THE BRITISH COLUMBIAN.

No. 83, Vol. 5.

NEW WESTMINSTER, SATURDAY, SEPTEMBER 2, 1865.

Price 6d. or 12 cts

New Advertisements.

## PROSPECTUS OF THE BRITISH COLUMBIA COAL MINING COMPANY! [LIMITED].

Incorporated under the Joint Stock Companies' Act, 1856, which limits the liability of each Shareholder to the amount of his Shares.

CAPITAL - - - - - \$100,000.  
IN 2000 SHARES OF \$50 EACH, WITH POWER TO INCREASE.

300 A. SHARES have been issued as paid up shares to the promoters of the company, as the consideration paid them for their right to 600 acres of land, &c. 700 B. shares to be issued to subscribers, subject to payment of \$2 per share at the time of subscription, and of calls of \$1 per share, per month, until \$10 in all shall have been paid, when the subscribers shall be entitled to certificates of fully paid up stock. The remaining 1000 C. shares are reserved for issue at par when the Coal Mine is sufficiently explored and proved.

### DIRECTORS:

CAPTAIN JAMES COOPER, Chairman;  
Hon. J. A. R. HOMER, M.L.C., W. CLARKSON, Esq.,  
JOHN ROBINSON, Esq., GEORGE DITZ, Esq.,  
SEWELL P. MOODY, Esq., JAMES VAN BRAMER, Esq.,  
JOHN C. HUGHES, Esq., W. J. ARMSTRONG, Esq.,

### AUDITOR:

THOMAS McMICING, Esq.

### BANKERS:

THE BANK OF BRITISH COLUMBIA.

### SECRETARY:

WILLIAM CLARKSON, Esq.

This company is organized for the purpose of exploring and mining for Coal, and boring for Coal Oil. The character of the sandstone at Burrard Inlet, its identity with the coal-bearing sandstone of Bellingham Bay and Nanaimo, and the numerous groupings of Coal to be found at different places on the Inlet and on English Bay, make it nearly certain that Coal measures similar to those of Bellingham Bay and Nanaimo will be found at a reasonable depth.

The company have secured a reserve of 600 acres on English Bay, and the British Columbia Government has pledged its support in every reasonable way. It is the intention of the company forthwith to explore the vicinity of English Bay for Coal, by putting down a bore—the strong probability being that in less than 90 days the ground will have been prospected and the company ready to sink a shaft and open a mine.

If the Coal croppings at English Bay and Burrard Inlet should be successful, as is usually the case, by thicker seams below, it must become an invaluable property. The position of the Bay and Inlet renders the harbors easy of access in all winds and seasons. The shore is bold, so that no long wharves or tramways would be needed, while the prices of Coal on the Pacific—averaging from two to three times the prices on the Atlantic—render the prospect of Coal mining one of the most promising enterprises of the day.

500 B. shares are all that are at present offered for subscription. The monthly calls on these will be adequate to meet the current expenses of exploring; the subscribers to these shares incur a small risk, but they get a compensation—a \$50 share for the small sum of fifteen dollars.

Parties desirous of obtaining shares may be furnished with every information by applying to the Secretary, at the company's office, in New Westminster. jy27tc

NEW WESTMINSTER, SATURDAY, SEP. 2, 1865.

#### THE ADDRESS AND THE REPLY.

In another column will be found a copy of an address presented to the Governor, on the eve of his departure on a visit to England, by the people of this city, together with His Excellency's reply thereto. The address, it will be observed, savors somewhat more of politics than such papers ordinarily do; but if any excuse for this feature is called for it is to be found in the absence of any constitutional medium through which the people may bring their views more directly to bear upon the Executive power, and the singularly favorable opportunity afforded by His Excellency's presence in England to press several matters of vital importance upon the Colonial Minister. It would be a fatal mistake to infer, from the general confidence in the head of the Executive and the absence of all political agitation, that the people are satisfied with the existing form of government. There is no doubt that the liberal and constitutional administration of it by the present Governor has had the effect of reconciling the people, for a time, to a system which would not have been tolerated under other circumstances; but these considerations cannot divest the system itself of those features which are so obnoxious to those accustomed to live under a representative form of government. On this point His Excellency's reply is peculiarly gratifying, and indicates the most liberal and enlightened views. Not only does he fully acquiesce in the views contained in the address, but he goes beyond that, and suggests the introduction of the popular element into the Executive Council. It is not, therefore, unreasonable to hope that His Excellency will return to us empowered to make the most liberal concessions to the people. Of one thing the people may rest well assured; their case could not be in better hands, and if His Excellency should fail in obtaining political enfranchisement for us it will not be his fault. The address, very properly we think, touches somewhat prominently upon the ill consequences of the continued agitation kept up in a portion of the neighboring colony for a legislative union with British Columbia. There is no blinking the fact that this agitation has exerted a most pernicious influence upon the interests of both colonies, especially this. Capitalists are not very likely to invest with any degree of permanency in a colony while an agitation is pending for constitutional changes which would so materially effect local interests as would a union of these colonies. On this point His Excellency's reply is firm and satisfactory. Indeed the document, as a whole, is of a character to inspire confidence and hope in the future. It has seldom been the fortune of a Governor to secure in so large a degree the confidence and esteem of the people in the brief space of sixteen months; and it redounds all the more to the credit of Governor Seymour that his popularity has been gained under somewhat adverse circumstances. With a liberal and matured system it is a comparatively simple matter to administer the affairs of a colony. But with one at once crude and imperfect, and extremely distasteful to the people, to administer successfully and with credit requires more than ordinary ability. And here we may mention one, singular feature of all the opposition and misrepresentation with which the policy of our Governor has met at the hands of the Victoria press; While abusing his acts in unmeasured terms, His Excellency's superior ability has always been frankly admitted.

To SUBSCRIBERS.—On and after this day, and until further notice, the BRITISH COLUMBIAN will be issued twice a week, viz., on Wednesday and Saturday mornings. We are induced to adopt this course, first, because a tri-weekly issue is not compatible with existing means of communication, either with the interior of this colony or with the outside world; and, secondly, in consideration of the great expense incurred in getting telegraphic news. We shall continue to receive daily telegraphic dispatches, and the two issues a week will contain about the same amount of reading matter as we have been giving in the three. Important telegraphic news reaching us on other than the days of publication will be laid before our local readers in extra form, for which a uniform charge of 12½ cents will be made, in order to assist in defraying the expense. Such is the practice in other communities, and we cannot afford to be more liberal.

## LUMBER MILLS.

S. P. MOODY & CO., Proprietors, New Westminster.

AGENTS IN VICTORIA:

FICKETT & CO., Wharf-street.

THESE MILLS are prepared to furnish cargoes of FIR, SPRUCE and CEDAR LUMBER, Tongued and Grooved Flooring, Spars, Piles, Shingles, Laths and Pickets at the shortest notice.

The access to the Mills is up the Gulf of Georgia to English Bay; thence up the Inlet. The anchorage in the bay is safe in all weather. The Inlet is perfectly land-locked, with plenty of water at all times for the largest class vessels.

Vessels loading at these Mills will have every facility for loading. The quality of Lumber is superior to any on the Pacific Coast, and can be furnished to any length up to 80 feet. There is a deputy Collector at the Mills to enter and clear vessels.

A Lumber Yard has been opened on Front Street, New Westminster, where a complete assortment of choice lumber will be found.

For further particulars apply to Mr. W. B. Wilson, Columbia Street.

Cleared; str. *Sierra Nevada*, Victoria and Portland; bark *Mermaid*, Port Angeles.

## SECOND DISPATCH.

New York, Aug. 21.—At a fire last night in this city a fearful encounter took place between engine companies P. and 41, in which pistols, knives, and bludgeons were freely used. One man was killed, 4 were shot and a large number were wounded. The police have taken possession of the engine-houses and engines. Twelve arrests have been made.

The Richmond correspondent of the *Tribune* states that the recent action of the Government, ignoring the election, is having a salutary effect. It is estimated that there are 40,000 negroes on the peninsula who have followed our armies during the war. Orders have been issued to muster out seven more regiments. It is intimated that only enough military force has been kept in the state to prevent vagrancy. The Christian Commission Agency has been broken up. The *Matamoros* correspondent of the *Tribune* states, "It was reported that Gen. Doblado would march north with from 6,000 to 10,000. It was also reported that in a conversation Minister Rolley stated that if trouble occurred with the United States the French would throw 50,000 men on the Rio Grande." The *Times* special dispatch states, that at a recent political meeting in Charles County, Maryland, a negro, for cheering a speaker who endorsed the union, was beaten by a large number of citizens, including among them a magistrate named Mudd, brother of the conspirator. Another magistrate afterward sent the negro to jail for attempting to defend himself. Gen. Schoenfeld has been granted two years leave of absence.

FARTHER POINT, Aug. 20.—The *Belgium* from Liverpool, Aug. 10th, Londonderry, 11th, arrived. The condition of the Atlantic Cable was unchanged, no news has been received over the *Great Eastern* or her consort. At an extraordinary meeting of the Atlantic Telegraph Cable Company, held in London, Aug. 9th, it was resolved to convert the preference shares into consolidated one per cent preference stock, and to issue additional shares to the extent of £80,000 to complete and commence to lay down the second!

Negotiations had commenced in London for a new Brazilian loan of four millions sterling. The following is a summary of the news by the *City of Baltimore*:—The *Daily News* says, there will be no further payment of interest or principal

of the Confederate loan. The *Times* highly eulogizes Gen. Sherman for his modest speech at St. Louis. The Liverpool Chamber of Commerce has memorialized the Postmaster-General to have the Canada steamers sail on Friday instead of on Saturday. The Paris correspondent of the *London Star* states, the popular subscription of ten centimes of gold medal for Mrs. Lincoln is still progressing. There were 2,500 subscribers. A committee was appointed to raise the number to 10,000. It was rumored in Paris that reinforcements to the extent of 60,000 troops was on the point of being sent to Mexico, 30,000 from France and 30,000 from Algeria. The illness of the King of Spain had assumed a more serious aspect. The cholera has been spreading at Constantinople.

## THIRD DISPATCH.

SAN FRANCISCO, Aug. 29.—Last evening as Edward Daniels, import clerk, and R. K. Weston, assistant cashier of Custom House, were driving in front of the Ocean House they were thrown down a steep embankment. Mr. Daniels was instantly killed, his neck being broken. Mr. Weston was badly bruised but not seriously injured. Mat. Washington, one of the firemen who was recently run over by the engine, is not expected to recover. The str. *John L. Stephens* arrived from Mazatlan this p. m., large numbers of secessionists had arrived at Mazatlan from Texas, among them were Capt. Kapp, Edward Grayson, Dan Howler, and other old Californians, Judge D. S. Troy and family, Judge W. W. Porter, D. S. Terry, nephew of the Judge, and Wilkes, formerly a Confederate senator from Arkansas, were in Mexico. Another party of 75 or 80 men are en route for Mazatlan. Reliable information has been received of the capture of Hermosilla, Sonora, by the Franco-Mexicans.

There were no sales of greenbacks at Board this forenoon.

Arrived, str. *Orizaba*, from Victoria. Sailed, bark *Almatia*, Portland; Hamburg bark *Malvina Scott*, Port Angeles.

## FOURTH DISPATCH.

SAN FRANCISCO, Aug. 30.—Jas. M. Washington, fireman who was run over by Monumental Engine last week at the Niantic Hotel, died this morning from lockjaw caused by the injuries received. Boehm is very low and his recovery doubtful. Mr. James, street agent for Barney Morgan & Co., of New York, advertises for proposals to furnish telegraph poles with which to commence the construction of the opposition telegraph line from San Francisco to the Atlantic States. It is their intention to complete a superior line with 2 wires stretched upon 1 set of poles.

The following order was issued from Gen. Halleck's Headquarters this morning:—GENERAL ORDER, No. 1.—In compliance with the orders of the President of the United States, Major-Gen. H. W. Halleck hereby assumes command of the military division of the Pacific, comprising the departments of California and the Columbia. General Order, No. 2.—All communications and reports not otherwise directed by regulations and orders will be made through the commanding Generals of the departments. General Order, No. 3.—Communications for division of headquarters, will be directed to Lieut. Col. Robert N. Scott, Assistant Adjutant-General of the Division.

By order of Major-Gen. Halleck, ROBERT N. SCOTT, Assist't-Adj.-Gen.

A shark 9 ft. in length and weighing 40 pounds was captured near Ravenswood Landing this morning. There are unmistakable indications of a revival of general trade, and as it is tolerably well understood that goods are scarce at the principal points of distribution in the interior and along the coast we are prepared to witness a vigorous business during the autumn. Many kinds of eastern goods in this market are in small supply and holders of such are advised by telegraph to hold for higher figures, the prices lately current not covering cost and charges in some instances.

Legal tenders 73 @ 73½.

The following items of Eastern news are taken from the *Oregonian*:

New York, August 8.—The *Post's* Washington special says that the Commissioner of Indian Affairs has received a proposition from a delegation of Philadelphia Quakers regarding the Indians of New Mexico, proposing to establish schools among the Navajo Indians free of all expenses to the Government. The Commissioner has granted the request. It promises the co-operation of the Bureau in forwarding the enterprise.

Sensors Foster, Doolittle and Ross, sent to investigate Indian affairs in New Mexico and Colorado, have returned from the plains. While absent they investigated the Sand Creek affair, and informed the Indians interested that the Government disapproved of Col. Chivington's action. They invited the Indians to meet them in council at Cow Creek, near Fort Larned, on September 10th, and arrange terms of peace. Favorable results are anticipated. Col. Samuel Tappan, of the First Colorado cavalry, accompanied the Senatorial delegation.

New York, August 15.—The State Department has been informed that Spain, having failed in her efforts to subjugate St. Domingo, now demands an acknowledgment that she went there to take possession at the request of the people. The Dominicans refused to make so humiliating an acknowledgment, and their ports have been declared blockaded.

PORTLAND, Me., August 15.—The Democratic convention to-day unanimously nominated Jas. Howard, of Portland, for Governor.

New York, August 17.—Preston King yesterday executed bonds as Collector of the Port of New York, and will enter upon the duties of his office on the 1st of September. The Ketchum robberies are estimated at \$5,000,000. R. R. Mulford, whose failure to meet his engagements was announced several days since, has been arrested on the charge of giving checks on banks in which he had no funds. His operations involved a loss of about \$100,000.

The *Commercial's* special says: Ketchum, Son & Co made an assignment to P. C. Calhoun, President of the Fourth National Bank, and Dement, former partner in the firm of Ketchum, Rogers & Dement. The house and furniture of Edward Ketchum have been seized by the sheriff.

The largest and most important council of the Indian tribes ever held on this continent will assemble at Fort Gibson about the 12th of September to settle upon the future relations with the Government, and give new and positive assurances of good conduct and loyalty. Some thirty tribes will be represented, numbering upwards of 75,000. Among the most important tribes to be represented are the Creeks, Chickasaws, Chickasaws, Camanches, Senecas, Shawnees, Papaws and Cherokees, all of which are representative tribes of undisputed strength, and they are each accused, more or less, of aiding in the late rebellion. Among the officers of the American Government who will confer with them upon the occasion and dictate the course they are to pursue towards the United States are Commissioner Cooley, of the Indian Bureau, Commissioner Edmunds, of the Land Office, Superintendent Ellis, of the Southern Agency, Colonel Parker, Military Secretary on Gen. Grant's staff, Gen. Howe, Gen. Heron and Col. Bent.

## EUROPEAN.

The weather in England has become inclement, much rain falling.

The *Times*, in speaking of the present position of Schleswig and Holstein, says that France continues to hope that any arrangement that may be made will be in conformity with the national sentiments of the people of the Duchies. Rumors of an early interview between the King of State and the emperor prevailed. The correspondent says it is generally believed such a personal interview will not take place before the evacuation of Rome by the French troops.

New York, August 13.—The *Warsaw Journal* announces that the plan for a telegraph line between Russia and America has been approved and signed by the Czar. The Russian Government undertakes to complete the line as far as Nicoladewski, the remaining portion being in charge of an American company. The capital of the latter amounts to \$10,000,000. Bonds, representing \$8,434,600, have already been issued. It is intended that this route shall be finished in five years.

## Later from Cariboo.

Our advices from Cariboo are to the 24th ult. Several new strikes were reported, but needed confirmation. Cain and Vaughn had discovered a new creek in a north-easterly direction from Williams. The particular locality is kept a profound secret; but it is believed by their friends that the discovery is a most important one, and that the new creek will equal Williams. They raised \$2500 in \$250 shares, and left with three others on Monday week, having ten months' provisions, which would favor the idea that the creek is some distance off. The utmost confidence is felt in this operation, as its promoters are known to be reliable men. The exploring party, which went out the other day, having taken the same direction it is thought probable they may hit upon the same creek.

R. Smith, the Alexandria-Quesnel road contractor, had completed the road. Munro was making good progress with the Cottonwood road. Humphrey & Pool's stages were to run to Beaver Pass to-day, and it is expected that next week the crack of the driver's whip will be heard on the banks of Williams Creek.

## Later from Columbia River.

Mr. Ladner returned from the Shuswap country on Thursday. He informs us that he left the train on a bald mountain, on the 19th ult. They started out from Shuswap Lake on the 12th, cutting their way through. It was expected the train would make the remainder of the journey in three days. The grass on this side of the mountain is confined to swampy places, and is difficult of access to animals. On the other side it is abundant and luxuriant. Mr. Ladner met three men from Cairns Creek. They represented the prospects as good and the miners confident. Mr. Moberly was pushing on with the trail. The first five miles were completed, and he expects to have the whole line done before interruption from snow. He experienced some difficulty in getting men. The line of road is such that only about eight miles will be of such an altitude as to be interrupted by snow. The number of animals going in is such as to ensure a full supply of provisions. Mr. Ladner's confidence in these diggings may be inferred from the fact that he dispatched a second train some time ago, and a third started out from Yale yesterday. Mr. Moberly has reserved for Government purposes the whole of the H. B. Co.'s claim at the head of the Lake. Mr. Ladner has selected a lot and erected buildings.

## Departure of the Governor.

Shortly before 4 o'clock, p. m., on Thursday His Excellency Governor Seymour, accompanied by his Private Secretary and A. T. Bushby, Esq., Registrar-General, embarked on the *Leviathan* and steamed down the river. As His Excellency passed the city the National Anthem was admirably pealed from Holy Trinity Belfry, while the flags from every mast were dipped, the compliment being gracefully acknowledged from the little steamer. There was little demonstration, but the grate and thoughtful expression indicated a feeling of regret at His Excellency's departure, and a consciousness that he could be ill spared from the colony, even for a few months. We learn that His Excellency reached Victoria at 9 o'clock yesterday morning.

ARRIVED.—The Hon. A. N. Birch, Administrator of the Government, and the Hon. J. W. Trutch, Chief Commissioner of Lands & Works, arrived from Hope on the *Onward*, on Thursday evening, about two hours too late to meet the Governor.

## Presentation of the Address.

The deputation appointed by the public meeting were received by His Excellency the Governor at 12 o'clock, m., on Thursday, at Government House, when they presented the address from the people, of which the following is a copy: To His Excellency Frederick Seymour, Esq., Governor of British Columbia and its Dependencies, &c., &c., &c.

MAY IT PLEASE YOUR EXCELLENCY.—We, Her Majesty's loyal subjects, cannot allow Your Excellency to depart from these shores, even for a brief period, without renewing our assurance of attachment to the person and Government of our beloved Queen, and confidence in Your Excellency's wise and constitutional administration. During the comparatively brief period Your Excellency has administered the affairs of this colony several important measures of reform, which had long been denied to us, have become law; and we look forward with great hopefulness to the influence these measures are so well calculated to exert upon the various interests of the country.

It cannot but be a source of satisfaction to Your Excellency to know that not only have the germs of commercial and national prosperity been implanted, but that political discontent and agitation, which so largely pervaded the community in former years, have happily disappeared, and that the only opposition to Your Excellency's policy has had its origin in a neighboring colony, and has proceeded from a quarter which invests it with the character of a compliment rather than a disparagement of Your Excellency's administrative acts.

But, while assuring Your Excellency of the confidence of the colonists in the wisdom of those great measures of reform which have already been granted, we would not be fully discharging our duty, either to Your Excellency or to ourselves, did we fail to remind you that very much still remains to be accomplished.

Your Excellency will not have failed to observe the anomalous and imperfect character of the only legislative body in the colony, and how uncongential and ill-suited to the genius and wants of British colonists is the present form of Government. Although possessing representation in name we have still virtually to submit to the humiliation of "Taxation without Representation," a principle in political economy happily now unknown under the more direct influence of the British Constitution, that glorious paladium of political and religious liberty which we all claim as our inalienable birth-right—a humiliation which we hope no longer to see marred by the bright prospects of this young colony, and chilling the ardor, and hindering the enterprise of its inhabitants. We, therefore, venture to hope that, while in England, Your Excellency's powerful influence will be used in obtaining a material extension of the representative element in the Legislative Council.

Your Excellency's visit to England, we also venture to hope, will be productive of much good to this colony in the promotion of emigration, the speedy establishment of a line of British steamers between Panama and this port, a desideratum the want of which is keenly felt by the colonists, and the placing more clearly and fully before the British public the great advantages which this colony possesses as a profitable field for the investment of capital; and we especially trust that Your Excellency will use your influence in putting an end to the agitation for a premature and unpropitious union of British Columbia and Vancouver Island, which is still kept up in Victoria, an agitation calculated alike to exercise an injurious influence upon both colonies, by keeping alive a feeling of uncertainty which seriously interferes with the investment of capital, and distracts the attention of colonists from those settled pursuits so essential to their own prosperity and that of the country.

In conclusion, we wish Your Excellency a safe and pleasant voyage to your native land, and a speedy return to this colony to carry out that wise policy already so happily commenced. And that Almighty God, in whose hands are all our ways, may have Your Excellency in His holy keeping, is the earnest prayer of,

Your Excellency's most obedient, humble servants.

(Signed), JOHN ROBSON, Chairman of Public Meeting, for and on behalf of the people.

## HIS EXCELLENCY'S REPLY.

GENTLEMEN,—I need not assure you that I receive with great satisfaction the address you have been good enough to present to me, on my departure from this colony.

It has, as you observe, been my duty, during the comparatively short period of my administration, to give my assent to several important measures of legislation. I sincerely trust that they will prove a benefit to the colony. I have been guided in my actions by a regard for the interests of British Columbia alone, even when I found with regret that they appeared to conflict with those of another of Her Majesty's possessions.

I must most gratefully acknowledge the political tranquility which has prevailed during my administration of the Government, and the candid and indulgent consideration which my acts have met with from the people of this colony. I am not aware of the opposition to which you alluded. It is not in New Westminster alone that taxation with imperfect representation is unpopular, and in our Northern Mines the new duty on gold is not liked. The people, however, in Cariboo received the principal officer of my Government with every mark of respect on a recent occasion, and no expression reached his ear to which the most sensitive ruler could take exception. The feelings of the people in each district of the colony are entitled to every consideration, and I trust that a knowledge by the inhabitants of Cariboo that twenty-three thousand pounds are being spent in the improvement of the District, the gold of which has as yet only rendered three to the Crown, may persuade the miners that the profit is on their side in the new arrangement. I can only repeat to them what I said in the winter, let us give our measures of legislation a fair trial. "Depend upon it the last thing the government of this colony would

desire to do is to drive the miners from the country or allow any large portion of the population to lapse into a state of political discontent."

I should, with perfect confidence in the result, be willing to see a larger popular element in the Legislative Council. Satisfied of the purity of motives by which the Government is actuated, I should likewise not object to the introduction, did Her Majesty's instructions allow of it, of one or two unofficial members into the Executive Council.

You may depend upon it that my best exertions will be used when in England to make the vast resources of this colony better known, to promote immigration to it, and to procure steam communication with Panama.

I freely acknowledge with you that the present feeling of uncertainty as regards the future relations of the colonies on this coast seriously interferes with the investment of capital, and distracts the attention of colonists from those settled pursuits so essential to their own prosperity and that of this country. I have publicly expressed my views on this subject more than once. They are known to the Secretary of State.

I thank you very sincerely for the expression of good wishes with which your address concludes. On my part I assure you that I shall continue to take the most lively interest in the welfare of the colony, and not relax in my efforts to promote it.

RETURN OF THE GOVERNMENT EXPLORING EXPEDITION.—Mr. James Orr, commander of the Government Exploring Expedition, came down on the *Onward* on Thursday. Two of the party—McCulloch and Hodge—turned back from Kamloops to go to the Big Bend diggings. All the others are coming down. Mr. Orr's official report will probably be placed before the public in the course of next week, and until then we prefer to say nothing about the result of the expedition, further than to remark that it is likely to be of a very much more favorable character than was at first supposed.

FROM VICTORIA.—The papers brought up by the *Enterprise* last night contain very little news. The only topic of interest in Victoria just now would appear to be the "Church Reserve." On Thursday an injunction against the Mayor and Council was issued out of the Supreme Court for the purpose of restraining that body from pulling down the fence. A large portion of the fence was pulled down during the following night, and information having been conveyed to the Police, Councillor Thorne was placed under arrest, and would appear before the Police Court yesterday. The *Colonist* is informed that Mr. Benham, an English Barrister of sixteen years' standing, has been gazetted Chief Justice of Vancouver Island.

THE EXCURSION which was to have taken place on Thursday came off yesterday. A considerable number availed themselves of the opportunity, and, we understand, had a very pleasant day.

FOR THE RUSSIAN TERRITORY.—The str. *Union*, Capt. Coffin, arrived from Victoria on Thursday, and will leave this morning for the Russian Territory, in the service of the Collins Telegraph Co.

ARRESTED.—We hear that the members of the Erickson Company, who went to Victoria the other day, have been arrested on the suit of the Saw-mill Co.

## PORT OF NEW WESTMINSTER.

ENTERED.

**ALL CURES MADE EASY!!**

**HOLLOWAY'S OINTMENT.**

**Bad Legs, Ulcerous Sores, Bad**  
**Breasts and Old Wounds.**

No description of wound, sore, or ulcer can resist the  
healing properties of this excellent Ointment. The  
worst cases readily assume a healthy appearance when  
this medicament is applied; sound flesh springs  
up from the bottom of the wound, inflammation of the  
surrounding skin is arrested, and a complete and per-  
manent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflam-**  
**mation.**

These distressing and weakening diseases may with  
certainty be cured by the sufferers themselves, if they  
will use Holloway's Ointment, and closely attend to the  
printed instructions. It should be well rubbed upon  
the neighbouring parts, when all obnoxious matter will  
be removed. A poultice of bread and water may some-  
times be applied at bed time with advantage; and most  
scrupulous cleanliness must be observed. If those who  
read this paragraph will bring it under the notice of  
such of their acquaintances whom it may concern, they  
will render a service that will never be forgotten, as a  
cure is certain.

**Rheumatism, Gout & Neuralgia.**

Nothing has the power of reducing inflammation and  
subduing pain in these complaints in the same degree  
as Holloway's cooling Ointment and purifying Pills.  
When used simultaneously they drive all inflammation  
and depravities from the system, subside and remove  
all enlargement of the joints, and leave the sinews and  
muscles lax and uncontracted. A cure may always be  
effected, even under the worst circumstances, if the use  
of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm &**  
**other Skin Diseases.**

After fomentation with warm water, utmost relief and  
speediest cure can be readily obtained in all complaints  
affecting the skin and joints, by the simultaneous use of  
the Ointment and Pills. But it must be remembered  
that nearly all skin diseases indicate the depravity of  
the blood and derangement of the liver and stomach,  
consequently, in many cases, time is required to purify  
the blood, which will be effected by a judicious use of  
the Pills. The general health will be readily improved,  
although the eruption may be driven out more freely  
than before, and which should not be promoted; per-  
severance is necessary.

**Sore Throats, Diphtheria, Quinsey,**  
**Mumps & all other Derangements**  
**of the Throat.**

On the appearance of any of these maladies the Oint-  
ment should be well rubbed at least three times a day  
upon the neck and upper part of the chest, so as to  
penetrate to the glands, as salt is forced into meat;  
this course will at once remove inflammation and ulcer-  
ation. The worst cases will yield to this treatment by  
following the printed directions.

**Serofula or King's Evil and Swelling**  
**of the Glands.**

This class of cases may be cured by Holloway's puri-  
fying Pills and Ointment, as their double action of puri-  
fying the blood and strengthening the system render  
them more suitable than any other remedy for all com-  
plaints of a serofulous nature. As the blood is impure  
the liver, stomach and bowels, being much deranged,  
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following  
cases:--

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and	Sore Nipples.
Burns.	Stiff Joints.	Sore Throats.
Bunions.	Elephantiasis.	Skin Diseases.
Bite of Mosquitoes.	Fistulas.	Scurvy.
and Sand-Flies.	Gout.	Sore-heads.
Coccy-hay.	Glandular Swel-	Tumors.
Chigo-foot.	lings.	Ulcers.
Corns (soft).	Lumbago.	Wounds.
Cancers.	Piles.	Yaws.
Chilblains.	Rheumatism.
